The people of Colorado have ceased to fight each other at the command of Republican and Democratic emissaries from Wall street, and have turned a united front against their common enemy—the enemy of silver mining.

The "Colorado plan of campaign" is being seriously considered by the friends of free coinage in the South as well as in Washington. A free silver presidential ticket will be nominated if gold bugs are nominated at Minneapolis and Chicago.

In the State Convention at Virginia City there was no endorsement of our Congressional representation. Some people think the Committee on Platform and Resolutions did not want to endorse Jones, Stewart and Bartine and some think it was an oversight. You pays your money and you takes your choice.

Query! If a man pays taxes on a lot which he turns in to the Assessor for \$250 and then asks \$2,000 when it is wanted to build a new school house, what are the rest of the taxpayers to infer? That he lied to the Assessor or that he is endeavoring to swindle the county, or that he is merely absent minded? Certainly one thing or the other two.

Here is a sample of the N. Y. Sun: Cleveland weakness is structural constitutional and general. He is hopelessly weak in doubtful States, he is pitifully weak in Democratic States to which he looks for delegates, he cannot poll a full vote of his own alleged party.

Lug him off! This is no accident. It is a general breakdown, a total collapse.

## The School Job.

Carson, May 2, 1892.

**EDITOR APPEAL**—Your expressed opinions concerning the public school building are daily becoming more popular with the taxpayers and business men of the town, and by the way are in almost perfect accord with my own opinions on the subject, published in the Tribune two years ago. When the matter was brought before the public at that time, I pointed out the necessity of providing proper means of egress for the scholars in case of fire or any other cause for general alarm; also the building of a room for the accommodation of the scholars, at that time, as in the present, taught at the old Clapp school house, and recommended the purchase of sufficient ground for the recreation of scholars.

I, in company with a well known builder and architect visited every part of the building and from the expert's report, arrived at the conclusion that the building, however faulty in construction, was as solid as need be, and that three thousand dollars would be amply sufficient for the necessary improvements.

As it appears that a committee of resident taxpayers, accompanied by a well known, capable architect, have recently examined the building and made a similar report, it is evident that you have grasped the right horn of the dilemma.

No man in Carson has a higher respect for the school institutions than I, and indeed few have profited more than myself from them, and I would give half of my last dollar to their support, but I do not see the need of a forty thousand dollar school house in so small a town as this, and especially when the tax rate is what it is, and when it is proved that a good school house can be made of the present one for five thousand.

I find Mr. Editor that my views on the premises are generally coincided with and that your ideas are concurred in by the majority of citizens of Ormsby. R. R. PARKINSON.

## Chinese Labor Wrangles

Last Sunday some Chinamen left Hawthorne for Columbus, where they were to take the place of some discharged Chinamen who had been employed on a borax marsh, owned by the Columbus Borax Company of New York. The discharged Chinamen had some of their members meet the Hawthorne crowd at Candelaria. One of the latter, when he got out at the depot, pulled his gun, but was quickly disarmed by the Constable. The whole outfit were then taken before the Justice of the Peace, and 15 six-shooters were found on the 18 men and confiscated by the authorities. Monday the Hawthorne Celestials were arrested for conspiracy. The leader of the discharged men has made his will and swears vengeance. When the Candelaria stage reached Columbus Sunday morning it was surrounded by an excited mob of heathens on the lookout for the new laborers who were not on board. The trouble, which is not over, was brought about by the majority of the Chinamen on the marsh refusing to work with the others as they belonged to another company.

## About The Size of It.

Nevada is about in the bottom of a hole to-day and all because her old fossilized political leaders hang to their parties in preference to asserting themselves in favor of the main industry of the State. We would like to ask what Nevada ever received or what she ever expects to get from the government that her people are under such obligations to support either the Republican or Democratic party, both of which have done their utmost to crush out our leading industry? Are our people to be satisfied with the sop of a government building or two in some of the principal towns? Do they think that will compensate for the destruction of thousands of homes in Nevada on account of the crippling of our mining industry? If they do, God help Nevada. We think the majority of the people think differently, and will make an effort next Fall to get out of the hole before the politicians bury us in it.—Hawthorne Bulletin.

## In Absolute Want.

The News of yesterday records a sad case of destitution in this city. Mrs. Lopez and seven children are on the verge of starvation and dependent on charity. Mr. Lopez, unable to get work in this city, has gone away to look for employment, and his present whereabouts are unknown.

It is a case which strongly appeals to charity, and any contributions left at the offices of any of the newspapers of the city will be sent to the family, who are living near Folsom's hay yard.

## Bock Beer.

The Carson Brewery is making Bock Beer, and it is now at all the saloons. Bock beer is always hailed with delight in the Spring by fastidious beer drinkers.

Klein is now in the field carrying the war against all other beers ever heard of. Yesterday a keg reached the APPEAL office, and the printers who went through the keg during the afternoon pronounced it a grand brew.

## The Fire Pail.

Millard the plumber is the agent for a new fire extinguisher. It is a covered pail filled with water with some chemical in the top.

## Sale of Blooded Stock.

About the middle of next month John Sweeney will sell at his ranch at public auction about fifty fine Gibraltar fillies in foal to Alpha and Triumph, and a number of yearlings and two-years-olds by Gibraltar. The sale will be without reserve and there ought to be a large attendance, as this will be the last sale of Gibraltar colts in this State, as Gibraltar will be taken East after the sale. A22
